With the port of the successful **Construction Simulator® 2** for smartphones and tablets for Nintendo Switch™, fans can look forward to proving their skills as a building contractor in the fictional US state of Westside Plains, while controlling heavy construction machinery for the first time ever on the popular Nintendo console.

Exactly like in the mobile game, the **Construction Simulator® 2 US – Console Edition** for Nintendo Switch™ will give players access to more than 40 officially licensed and carefully replicated construction vehicles and machines by world-famous brands such as Caterpillar®, Liebherr, Palfinger, Bell Equipment, STILL, ATLAS, Mack Trucks, Meiller Kipper and Kenworth. Among the machines they can operate are a Cat D8T crawler tractor, the 430F2 backhoe or the 745C dump truck, Palfinger's PK 27002 SH loading crane, Liebherr's 81K tower crane and LTM 1300 mobile crane, ATLAS' L310 wheel loader and Bell Equipment's B45E dump truck, as well as the T880 from Kenworth – just to name a few of them.

Regardless if you are playing at home on your TV screen or in handheld mode: Next to the numerous machines there are more than 60 engaging and challenging construction jobs waiting for the players - including repairing crumbly roads, rebuilding a railroad bridge, minor gardening work, building new residences and industrial halls, as well as transporting goods and machines, constructing new apartment buildings, mending canals, and much more!

Construction Simulator® 2 US – Console Edition for Nintendo Switch™ is now available as a digital download on the Nintendo eShop for 19.99 EUR / 19.99 USD / 17.99 GBP (RSP).
