

astragon Entertainment is a wholly owned subsidiary of Team17 Group PLC and is one of the leading German publishers and developers of sophisticated working simulation games. In 2023, the German development studio Independent Arts Software joined astragon Entertainment as a subsidiary. astragon Entertainment's internationally known IPs include brands such as Construction Simulator, Bus Simulator, Police Simulator and Firefighting Simulator. With cooperative, non-violent gameplay, detailed, realistic game environments and brand collaborations with industry partners from all over the world we appeal to a broad target group of players of all genders and ages. The distribution of high-quality third-party products rounds off our interesting product range.

To support our team in Düsseldorf, we are looking for a **Technical Project Manager (f/m/d)** with immediate effect.

Key Responsibilities:

- You will proactively manage stakeholders, budgets, timelines, and project structure for successful collaboration
- You take ownership of creating, managing, and monitoring project schedules in Jira
- You are taking care of the setup, maintenance and administration of our Jira cloud infrastructure and its projects
- You manage project risks and develop contingency plans as needed
- You organize, facilitate and follow-up on regular and project-specific team meetings
- You monitor and report project progress to the Head of Project Management

Core Competencies:

- Bachelor's degree in a related field or equivalent qualification
- Proven track record as a Project Manager / Project Leader or Scrum Master in the games or media industry
- Experience in managing several ongoing projects across multiple teams
- Detail-oriented with strong communication, organizational and time management skills
- Extensive Experience with Jira Cloud projects and its administration and customization (e.g. Automations, Workflows, Filters, Permissions, JQL)
- Strong written and verbal communication skills in English and German
- Certifications in project management (e.g., PRINCE, PMP, Scrum Master, Product Owner) and Jira are an advantage

What we can offer:

- Hybrid work & flexible working hours
- An inspiring work environment in a dedicated, diverse team
- Dynamic career opportunities & option for annual professional development programs
- Bonus entitlements, employer-funded pension plan
- Downtown location with good access to public transportation as well as the opportunity to park for free
- The opportunity to actively shape the future of a growing company

Does this sound like you? If your answer is yes, we'd love to hear from you! Get in touch and send your CV along with your salary expectations and notice period, to job-applications@astragon.de
